

## Summary Sheet

Date	25/04/13
Grid Reference	SE 448 038
Site Area	14.1 ha
Surveyor	Chris Doar, Wildscapes

Site Name	Land south of Dearne Valley Parkway
Site Ref Number	D1 B

### 1 ASSESSMENT

Biodiversity interest (record presence by a cross as appropriate)

Habitat	Present	Notes
Woodland		
Scrub	X	
Scattered trees		
Species poor or defunct hedgerows	X	
Species rich hedgerows		
Amenity or improved grassland		
Semi-improved grassland	X	D1B.2
Unimproved grassland		
Marshy grassland		
Tall ruderals		
Dwarf shrub heath		
Lichen/bryophyte heath		
Reedbed		
Swamp		
Standing water (ponds)		
Flowing watercourses		
Arable / cultivated farmland		
Other: Bare ground	X	D1B.1

Species	Present (seen)	Quality of habitat		
		Low	Mod	High
Plants	X	X		
Invertebrates	X	X		
Amphibians		X		
Reptiles		X		
Birds	X	X		
Mammals		X		
Other				

### Influences on external features

On watercourse	No
On wildlife corridor	No
Would lead to habitat isolation	No
Proximity/linkage to SSSI/LNR	None
Other	

## 2 RECOMMENDATION

	<b>Mitigation measures / design considerations</b>	<b>Score</b>
a) Development of the site would have minimal detrimental local ecological impact.	The section of hedgerow remaining in the north-western corner of the site should be retained, if possible, should the site be developed. See Figure 2.	1
b) Development of the site would result in some adverse local ecological impact but there is scope for mitigation.		
c) Development of the site would result in detrimental ecological impacts.		

## 3 PHOTOGRAPHIC DETAILS

Photograph locations are recorded on the site map.

## 4 FURTHER INFORMATION

### Brief Site Description

The vast majority of this site was bare ground at the time of survey, being part of a larger area of land being levelled, presumably prior to redevelopment. The far northern corner of the site was excluded from this development however, and is vegetated by semi-improved neutral grassland, with a small paddock for horse grazing adjacent to this.

### Additional comments / information

An accumulation of litter is a problem on the northern-most section of the site.

With reference to the data search, no significant issues for protected or priority species have arisen for this site.

Figure 1 shows the Phase 1 Habitat map for the site.

Figure 2 shows the areas with significant ecological value.

Darfield Area

Sub-site D1B

Site Area: 14.1 ha

OS Grid Ref: SE 448 038

Date Surveyed: 25/04/13

Surveyor: Chris Doar

### **Site Description**

This is a linear site, lying on the fringes of the Goldthorpe Industrial Estate. It is bounded by the A635 to the north, the industrial estate to the east and arable land (site D1A) to the south and west.

The vast majority of this site was bare ground at the time of survey, being part of a larger area of land being levelled, presumably prior to redevelopment. The far northern corner of the site was excluded from this development however, and is described below.

This northernmost section of the site is vegetated by semi-improved neutral grassland, with a small paddock for horse grazing adjacent to this. The sward across the area is rank, being dominated by Cock's-foot (*Dactylis glomerata*) and False Oat-grass (*Arrhenatherum elatius*). Several piles of manure, and topsoil with rubble, have been tipped across the area and these support communities of ruderal herbs including Common Nettle (*Urtica dioica*) and Hogweed (*Heracleum spondylium*). Other herbs such as Dandelion (*Taraxacum* agg.) and Broad-leaved Dock (*Rumex obtusifolius*) were frequent across the sward. Littering was a problem on this part of the site.

The sward in the grazing paddock was cropped very close and appeared species-poor. A full species-list of this area was not gathered due to the presence of livestock.

A species-poor, Hawthorn (*Crataegus monogyna*) dominated hedgerow runs along the western boundary of this northern section of the site.

## Species List for D1B

DAFOR Scale

D=dominant, A=abundant, F=frequent, O=occasional, R=rare, L=locally

### Hedgerow

#### Trees and Shrubs

Hawthorn	<i>Crataegus monogyna</i>	D
Ivy	<i>Hedera helix</i>	O
Elder	<i>Sambucus nigra</i>	O

### Grassland

#### Trees and Shrubs

Bramble	<i>Rubus fruticosus</i> agg.	LD
---------	------------------------------	----

#### Herbs

Mugwort	<i>Artemisia vulgaris</i>	F
Rough Chervil	<i>Chaerophyllum temulum</i>	R
Hemlock	<i>Conium maculatum</i>	O
Willowherb	<i>Epilobium</i> sp.	F
Cleavers	<i>Galium aparine</i>	O
Hogweed	<i>Heracleum sphondylium</i>	LF
White Dead-nettle	<i>Lamium album</i>	R
Creeping Buttercup	<i>Ranunculus repens</i>	O
Green Alkanet	<i>Pentaglottis sempervirens</i>	R
Broad-leaved Dock	<i>Rumex obtusifolius</i>	F
Dandelion	<i>Taraxacum</i> agg.	F
White Clover	<i>Trifolium repens</i>	O
Common Nettle	<i>Urtica dioica</i>	LA

#### Grasses, sedges and rushes

Creeping Bent	<i>Agrostis stolonifera</i>	F
False Oat-grass	<i>Arrhenatherum elatius</i>	F
Cock's-foot	<i>Dactylis glomerata</i>	A
Annual Meadow-grass	<i>Poa annua</i>	LF
