General Notes:

IDC (Individually Determined Charge) - please contact the Building Control Office to obtain a quotation of charges.

The plan charge/building notice charge is payable at the time of submission of the application to the Council. The inspection charge is payable on demand after the Council carries out the first inspection in respect of which a charge is payable.

Where an application relates to two or more separate buildings or building works, all of which are substantially the same as each other, an individually determined reduction in the standard plan, inspection and/or building notice charge may apply – please contact the Building Control Office to discuss.

Where fees are based on the estimated cost of the building work, the “estimated cost” means a reasonable amount that would be charged by a person in business, i.e. a building contractor, and should not include VAT. Please be advised that self-build costs cannot be accepted.
