

Barnsley Safeguarding Adults Board (BSAB). *Learning and Development sub group report.*

The aim of the Learning and Development Sub group is to help all organisations to deliver high quality safeguarding adults education and training to all workers and volunteers in line with our agreed training plan

Date of last meeting: 12 December 2018

What's working well?

We have got a clear map of what training different workers need to help them keep adults safe

We are pulling together a training resources pack that all organisations can use to help all organisations to deliver high quality education

What we are thinking about?

How we can deliver specialist training to workers and volunteers who need it

Helping all organisations to use the decision support guidance that should be used when filling in a safeguarding adults concern form

What action has been taken?

We have got a work plan to help us achieve the work agreed.

Some specialist training has been planned to help us deal with people in positions of trust (workers and volunteers) who have harmed adults

Next Steps

We will re-launch the decision support guidance early in 2019.
