

BARNSLEY JOINT STRATEGIC NEEDS ASSESSMENT (JSNA)

Chapter (Integrated Care Outcomes Framework Domain): IMPROVING QUALITY OF LIFE

**Theme:
MANAGE OWN HEALTH**

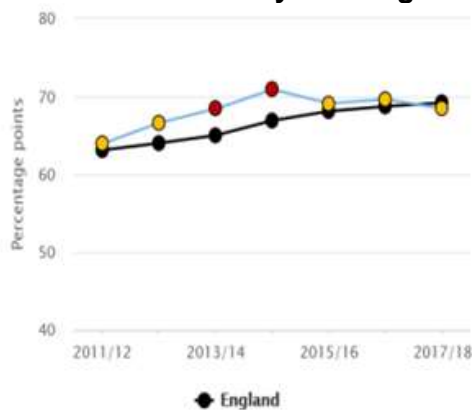

**ICOF Indicator:
GAP IN EMPLOYMENT BETWEEN THOSE WITH A LEARNING DISABILITY AND
OVERALL EMPLOYMENT RATE**

Why is this important?:

The review "Is work good for your health and wellbeing" (2006) concluded that work was generally good for both physical and mental health and wellbeing. The strategy for public health takes a life course approach and this indicator provides a good indication of the impact limiting long-term illness has on employment among those in the "working well" life stage.
