Introduction and Purpose

Barnsley Council is continuing to change how we work together for a 'Better Barnsley'. We have ambitious plans to improve and grow as identified in our Corporate Plan for 2017-2020. This sets out what we aim to achieve over the next three years to improve outcomes for our customers and the community as we strive to become more customer focused, modern, efficient and business minded.

We're still focused on achieving our three key priorities:

- Thriving and vibrant economy
- People achieving their potential
- Strong and resilient communities

We still feel that these areas warrant greater attention, emphasis, and possibly resources, to influence other areas of activity and make the greatest impact overall.

The council will concentrate resources to make the most impact by providing services where they are most needed and we'll help people to do more for each other and their community. To do this, we need a solid evidence base to develop effective interventions which will help to achieve a 'Better Barnsley'. Our Borough Profile provides content intended to support effective strategic and local decision making for the future and identify commissioning needs by stimulating discussion, debate and action to enable us to focus on those improvements that will make the most difference to quality of life in Barnsley.

The data within this report are from the latest available as of May 2018. It compares the Area Council with Barnsley and that of England where possible.

This information is intended to support Area Councils to identify some of their strategic priorities and commission services to meet these challenges.

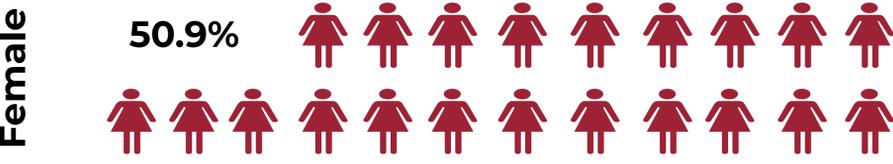

Demographics

Overall Population

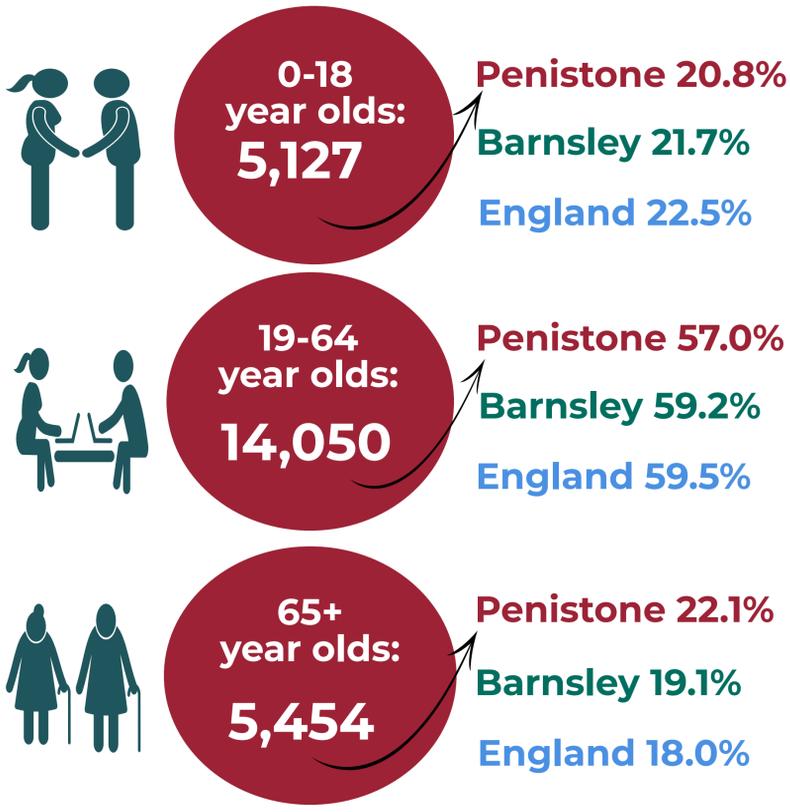

24,631

Up 7.3% since 2011

Barnsley's population has been growing constantly since 2001. Since the 2011 Census, the resident population of Penistone has increased by 7.3%, whereas across Barnsley there was a 4.9% increase. These increases were mainly due to more births than deaths and international migration.

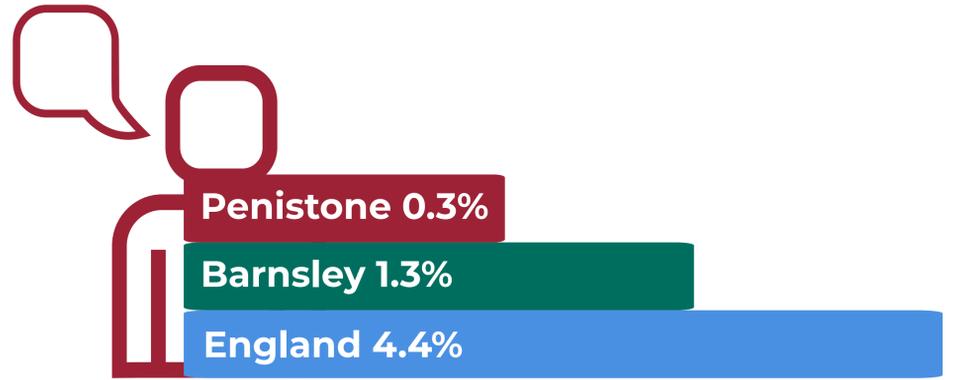

Age Profile and % of Total Population

The age profile of the population is changing both locally and nationally due to the rising number of people aged 65+ years. The resident population of Penistone consists of less young people (under 19 years) and those of working age but more of pensionable age residents when compared to Barnsley and nationally.

Source: ONS 2017 Mid-Year Estimates

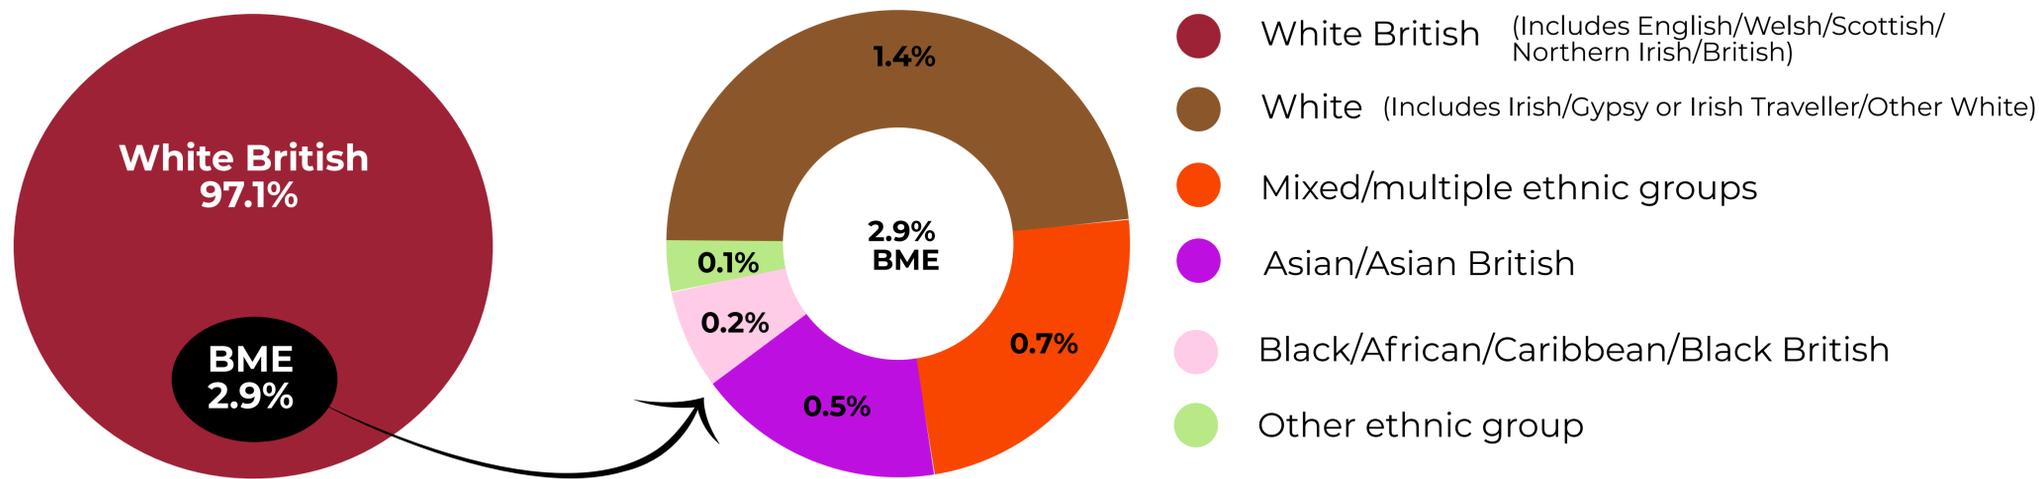

Main Language is not English

Source: ONS 2011 Census

In 2011, less than 1 in every 100 penistone residents' main language was not English.

Ethnic Breakdown

	White British	BME
Penistone	97.1%	2.9%
Barnsley	96.1%	3.9%
England	79.8%	20.2%

Barnsley's ethnic diversity continues to change. In 2011, in Penistone 3 in every 100 people were from a Black and Minority Ethnic (BME) group compared to 4 in every 100 across Barnsley.

Demographics

Indices of Multiple Deprivation 2015

This is calculated based on seven domains of deprivation, which in turn are composed of a number of indicators that are scored and ranked to produce an overall domain score.

Proportion of Penistone Lower Super Output Areas (LSOAs) in 10% Most Deprived in England

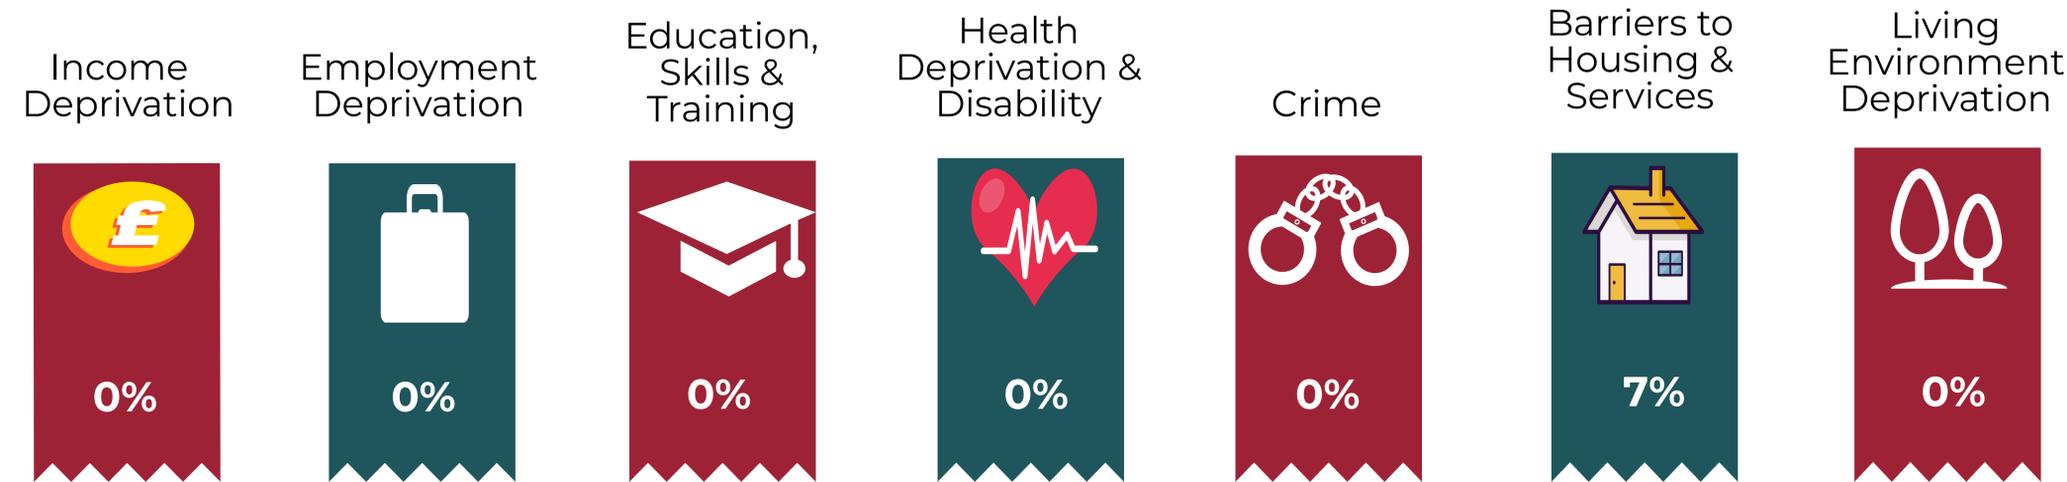

- LSOAs in 10% Most Deprived in England
- LSOAs not in 10% Most Deprived in England

None of the LSOAs in Penistone East and Penistone West were in the 10% most deprived in England for both IMD 2010 and IMD 2015.

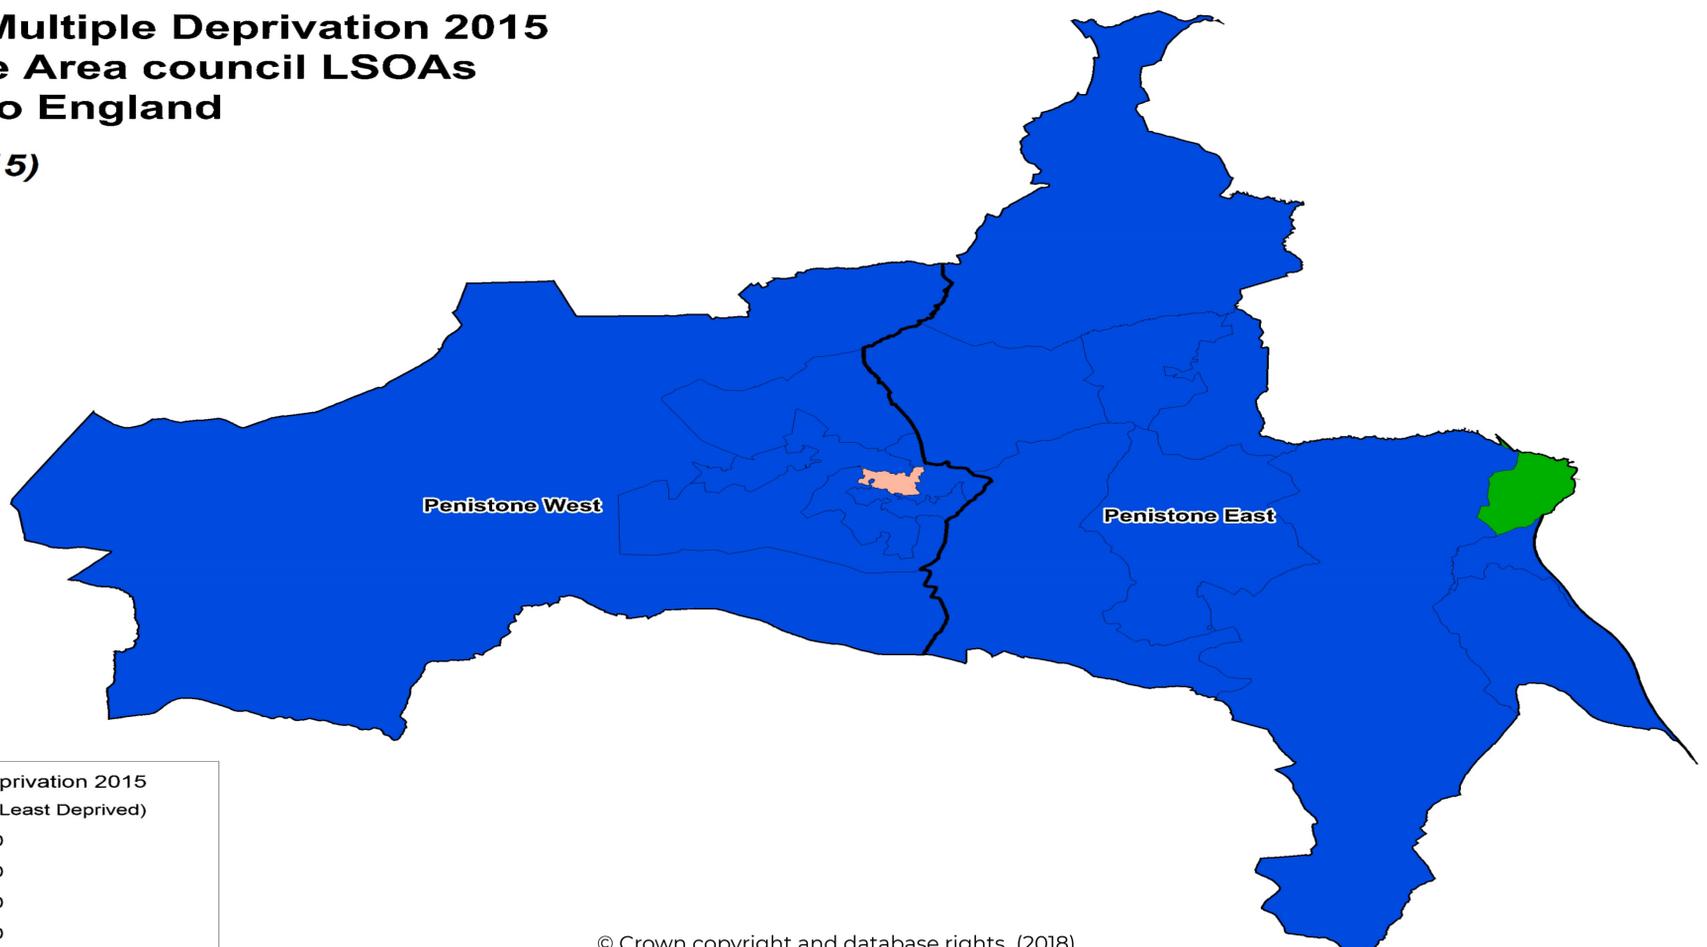

The Seven Domains of Deprivation and how Penistone Performs

Percentage of Penistone area LSOAs in the Bottom 10% in England by Domain

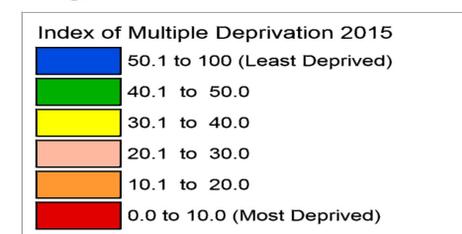

Index of Multiple Deprivation 2015 Penistone Area council LSOAs Relative to England

Female

Life expectancy at birth for women in the Penistone area is 3.8 years higher than for women in Barnsley overall. The current rate of 85.7 years is higher than in 2012-2014.

Under 18's Conceptions

Rate per 1,000 Population Aged 15-17 Years

Under 18 conception rates in the Penistone area have been consistently lower than the rates in Barnsley and England during the period 2011 to 2015. The 2015 rate of 13.4 is the lowest since 2011.

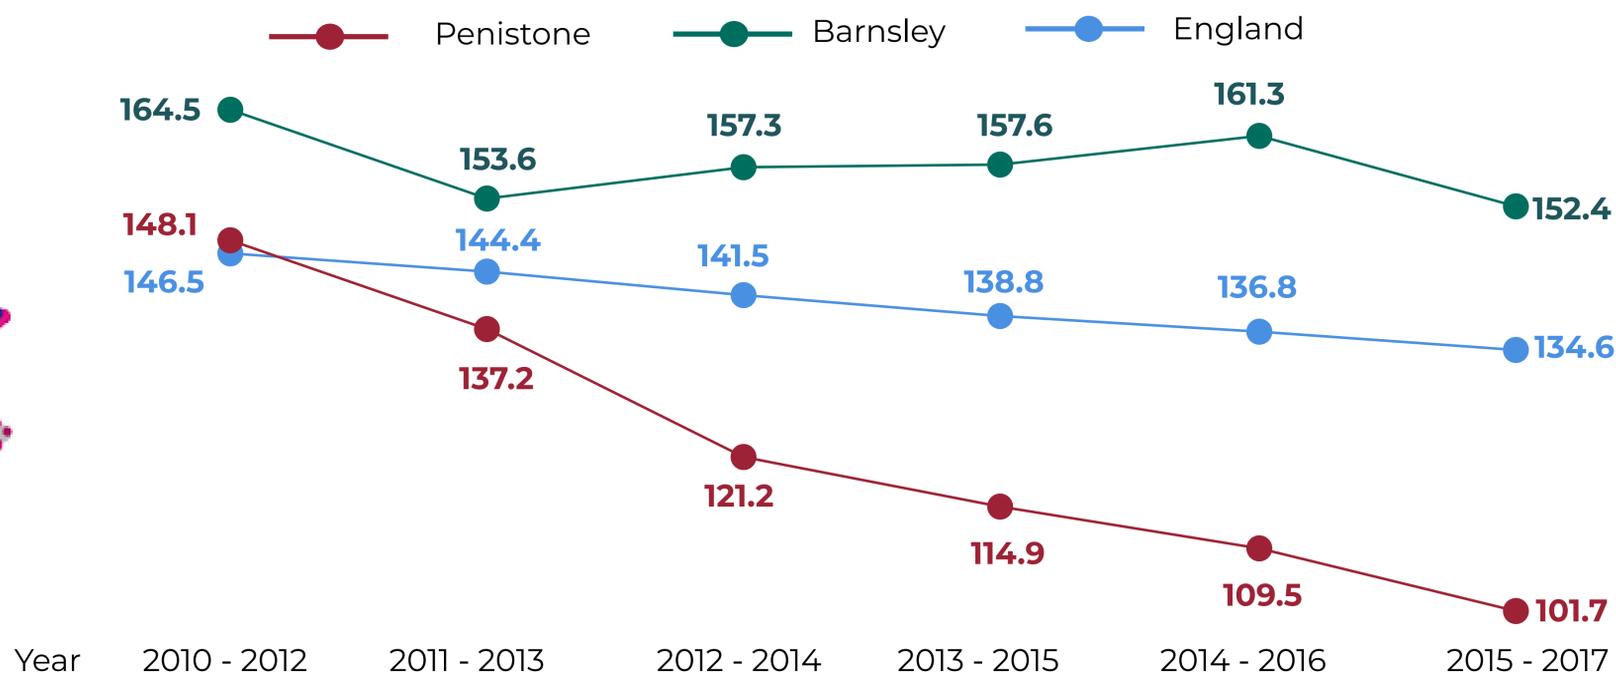

Source: ONS 2012-2017

Source: ONS 2011-2015

Health and Wellbeing

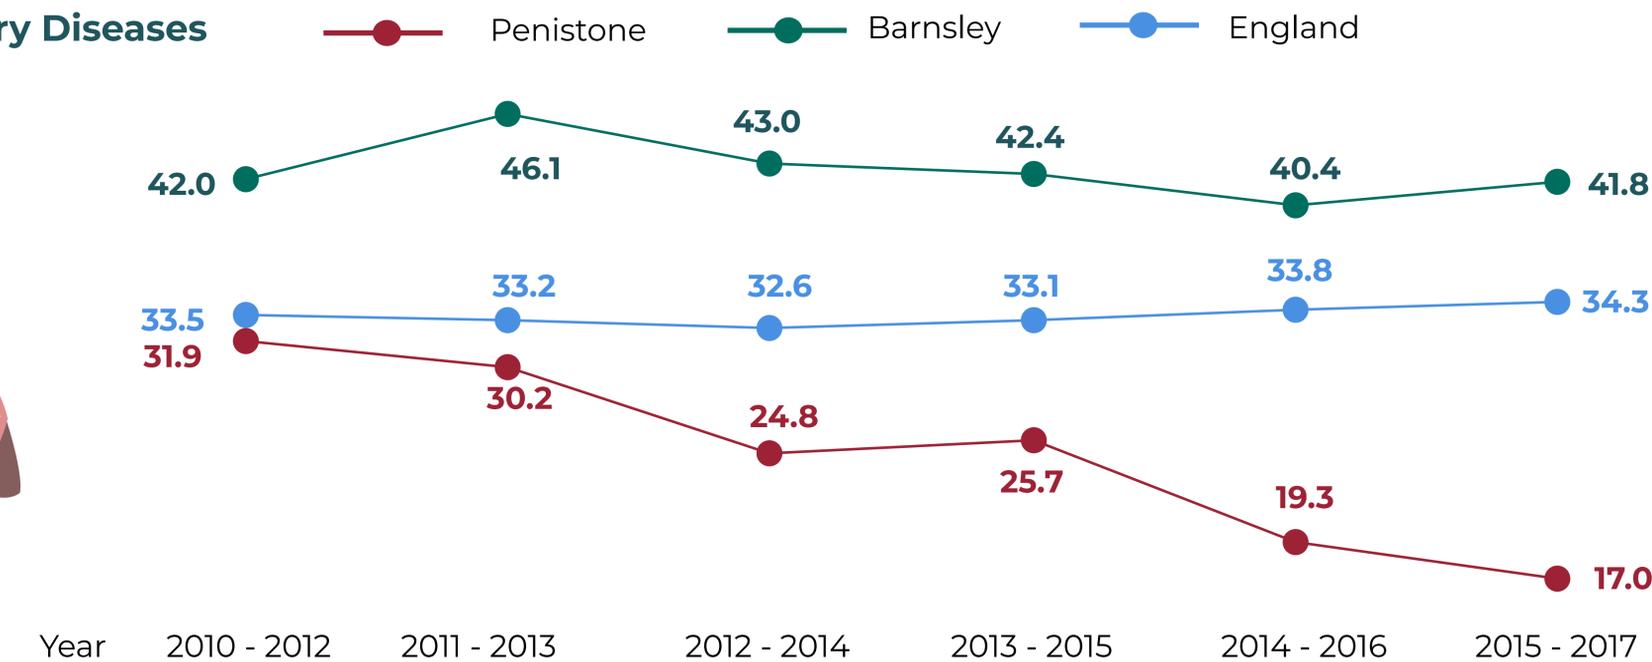

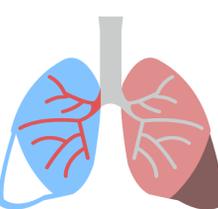

Under 75 Mortality (rate per 100,000 population)

Cancer

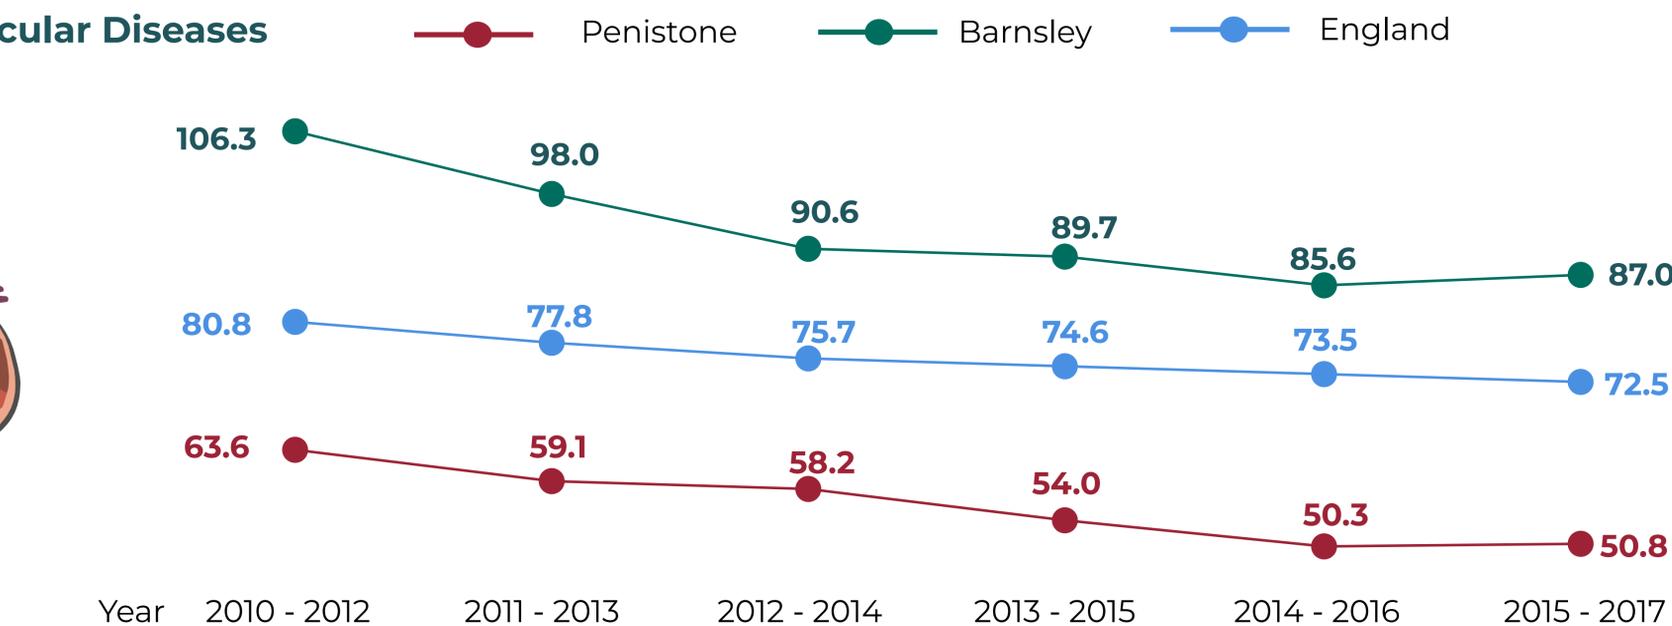

The Penistone area's under 75 cancer mortality rates have been consistently lower than the rates in Barnsley during the period 2010-2012 to 2015-2017. The current rate of 101.7 per 100,000 is the lowest during the period.

Respiratory Diseases

Under 75 mortality rates from respiratory diseases in the Penistone area have been consistently lower than both the rate for Barnsley overall and the National rate at each time point during the period 2010-2012 to 2015-2017. The current rate of 17.0 per 100,000 is the lowest during the period.

Cardiovascular Diseases

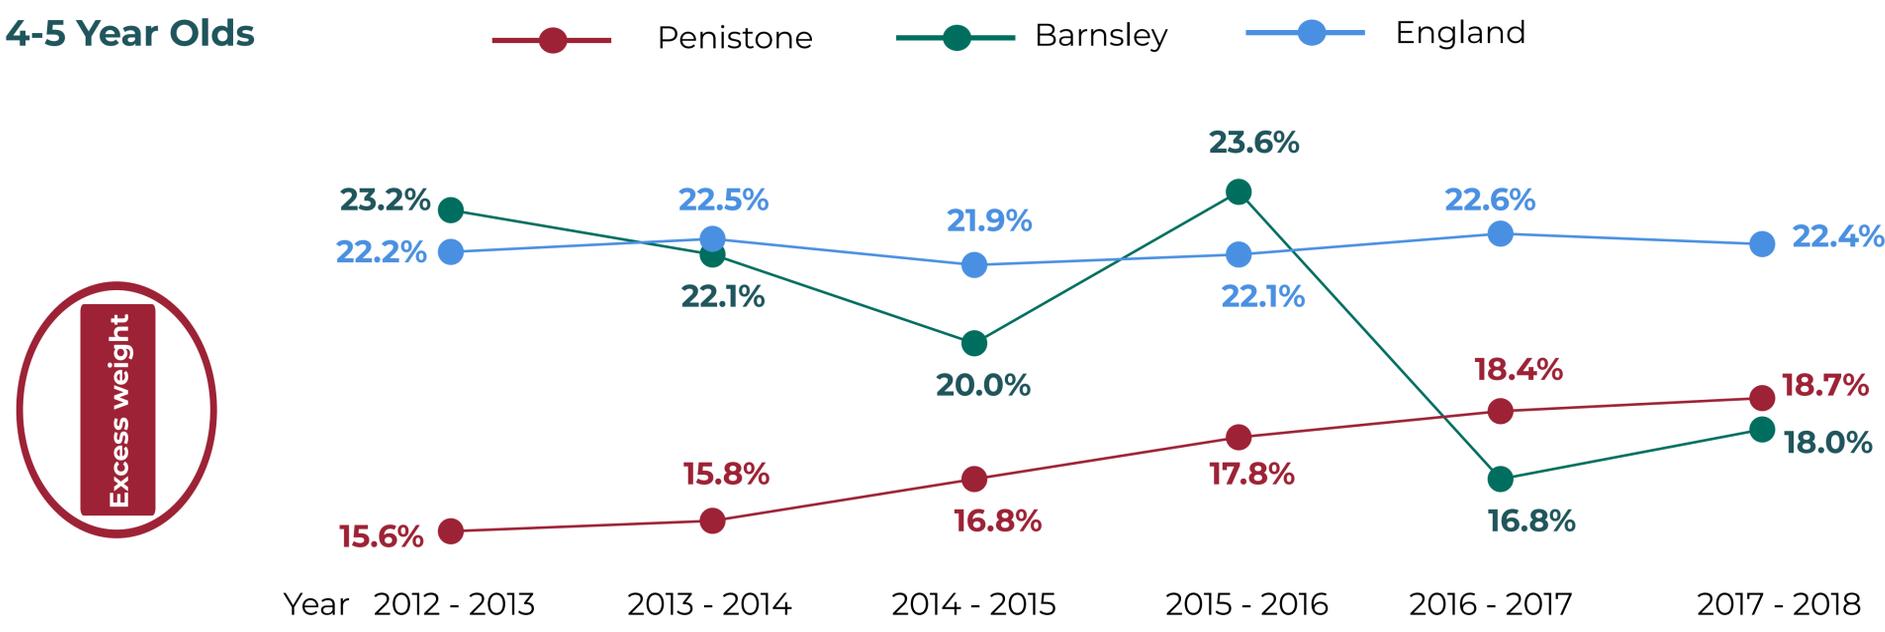

Under 75 mortality rates from cardiovascular diseases in the Penistone area have been consistently lower than both the rate for Barnsley overall and the National rate at each time point during the period 2010-2012 to 2015-2017.

Source: Public Health England (based on ONS Source data), 2010-2017

Health and Wellbeing

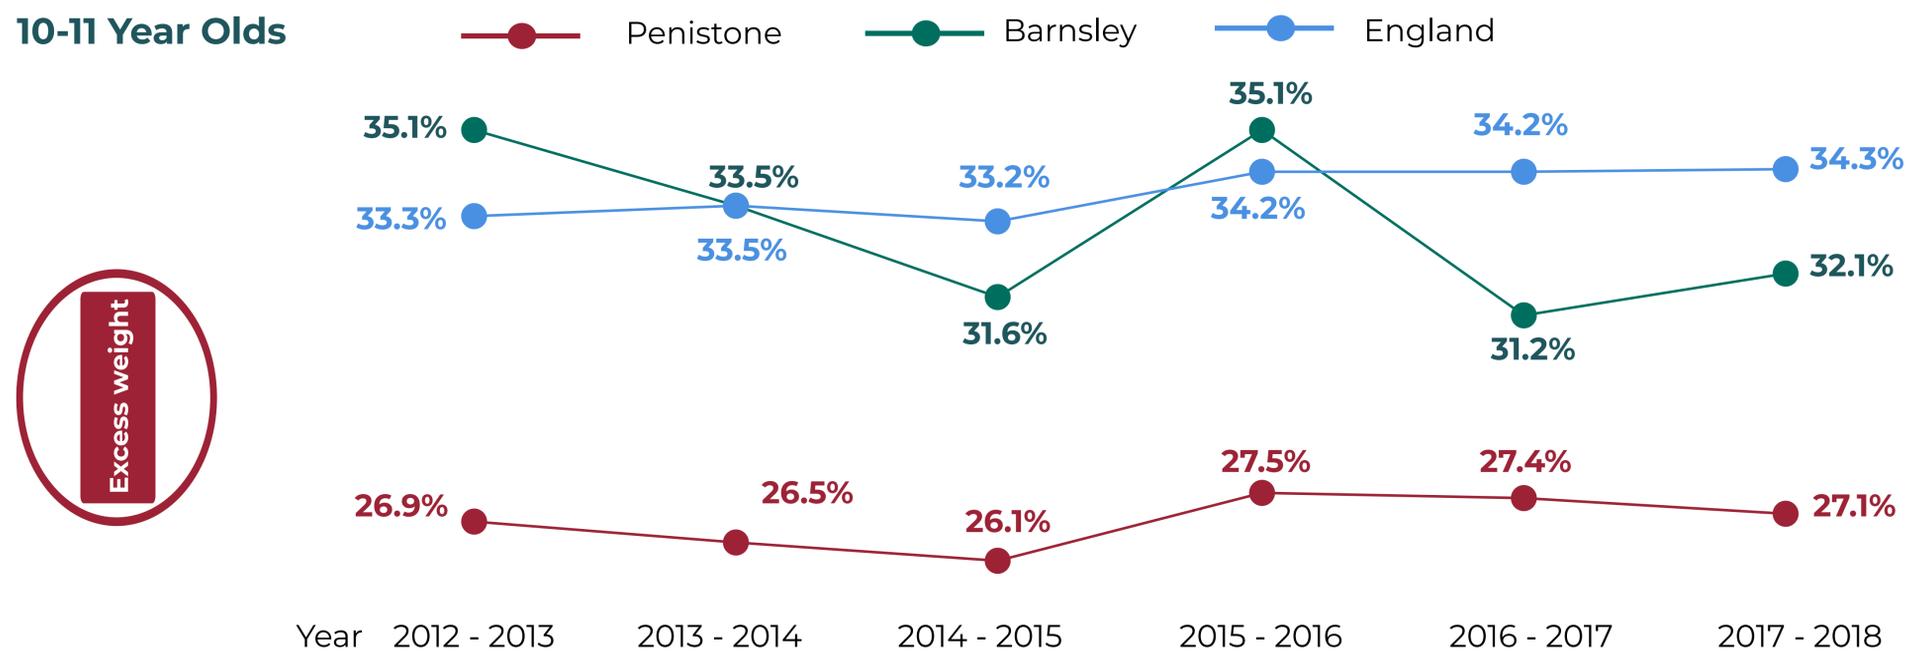

Excess weight

4-5 Year Olds

The proportion of 4-5 year olds in the Penistone area who are overweight or obese had previously been lower than the overall Barnsley rate at each time point between 2012-2013 to 2015-2016. However, rates for 2016-2017 and 2017-2018 were higher than Barnsley overall, with the current rate being the highest for a number of years.

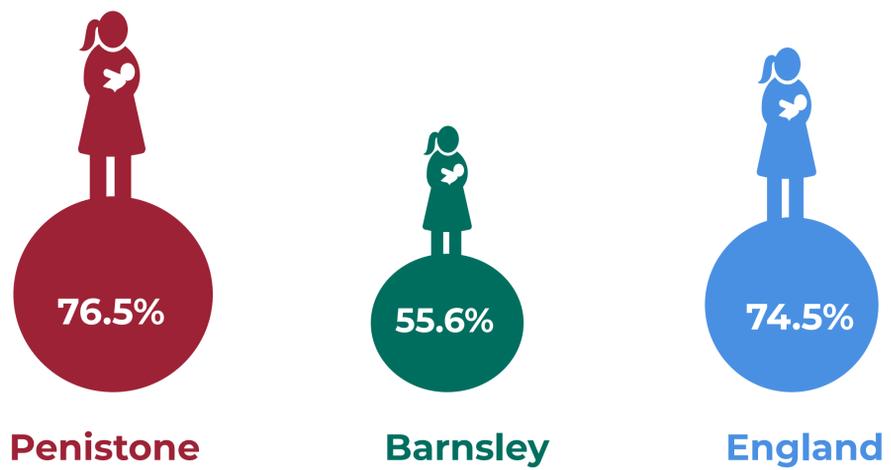

10-11 Year Olds

The proportion of 10-11 year olds in the Penistone area who are overweight or obese has been consistently lower than the overall Barnsley rate at each time point since 2012-2013. Rates have fluctuated during the period.

Breastfeeding

Initiation

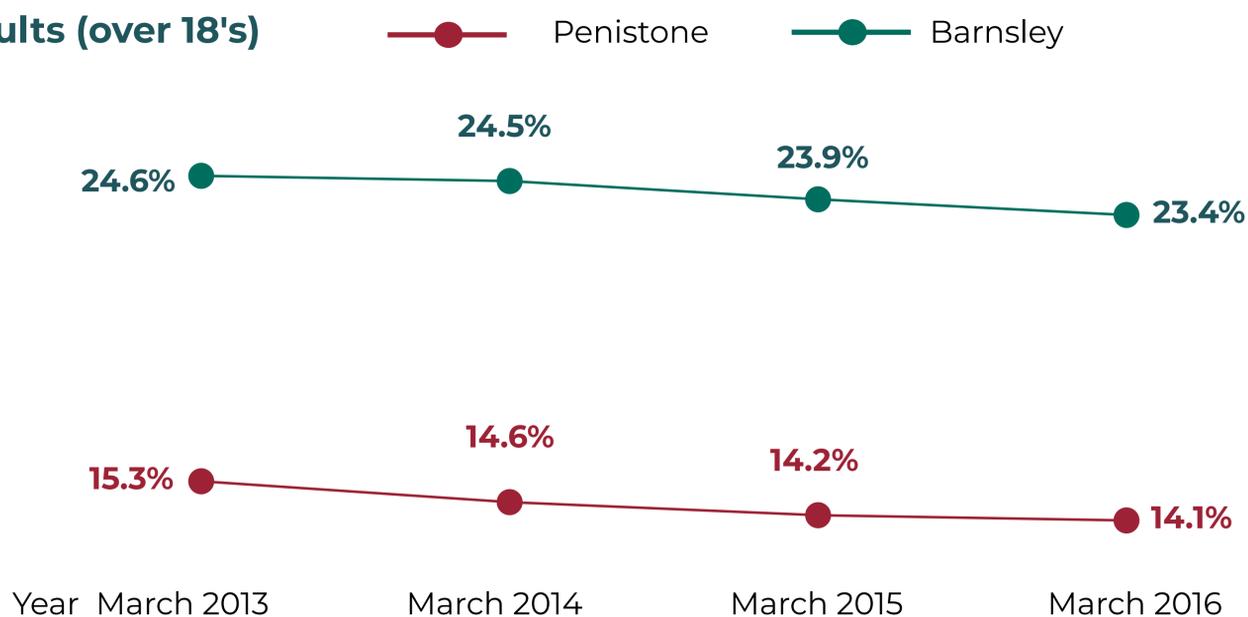

Just over three-quarters of women in the Penistone area (76.5%) breastfeed their babies at birth; considerably higher than the Barnsley rate of 55.6%.

Source: NHS England 2016-2017

Health and Wellbeing

Smoking

Prevalence - Adults (over 18's)

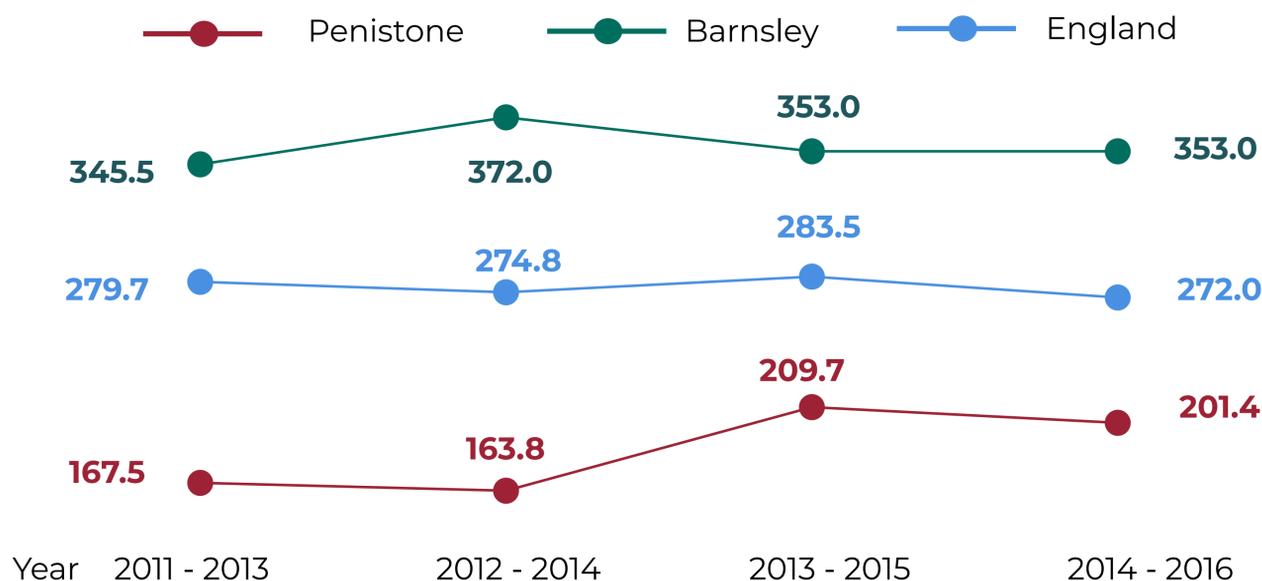

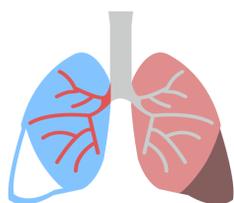

No England data available for smoking prevalence as the Area Council and Barnsley data has been calculated locally from GP records.

Local GP records 2013 - 2016

The proportion of adults in the Penistone area who smoke has been consistently lower than the overall Barnsley rate at each time point during the period 2013 to 2016. The current rate of 14.1% is the lowest since 2013.

Related Deaths per 100,000 (Over 35's)

The Penistone area's smoking related deaths rates have been consistently lower than the Barnsley rates since 2011-2013. However, the current rate of 201.4 per 100,000 aged 35+ is the second highest during the period 2011-2013 to 2014-2016.

Source: ONS mortality data and mid-year population estimates and NHS Digital 2011 - 2016

At Time of Delivery

The proportion of women who smoke during pregnancy in the Penistone area (4.1%) is lower than the proportion in Barnsley overall (16.8%).

Source: Calculated by PHE from the NHS Digital return on Smoking at Time of Delivery (SATOD) 2016-2017

Households

Residents Living Alone and Aged 65+ Years

The 2011 Census showed that 13.3% of the residents in Penistone aged 65+ lived alone and could be at risk of social isolation. Rates are similar to those levels across Barnsley and nationally.

Housing Tenure

Owned

In 2011 more than 7 in every 10 properties in Penistone were owned with a mortgage or owned outright. This is slightly higher than Barnsley and national rates.

Social Rented

There are significantly fewer properties in Penistone that are social rented when compared to rates in Barnsley and nationally.

Private Rented

In 2011, the proportion of all properties that were privately rented in Penistone was significantly lower than the overall rate in Barnsley and national rate.

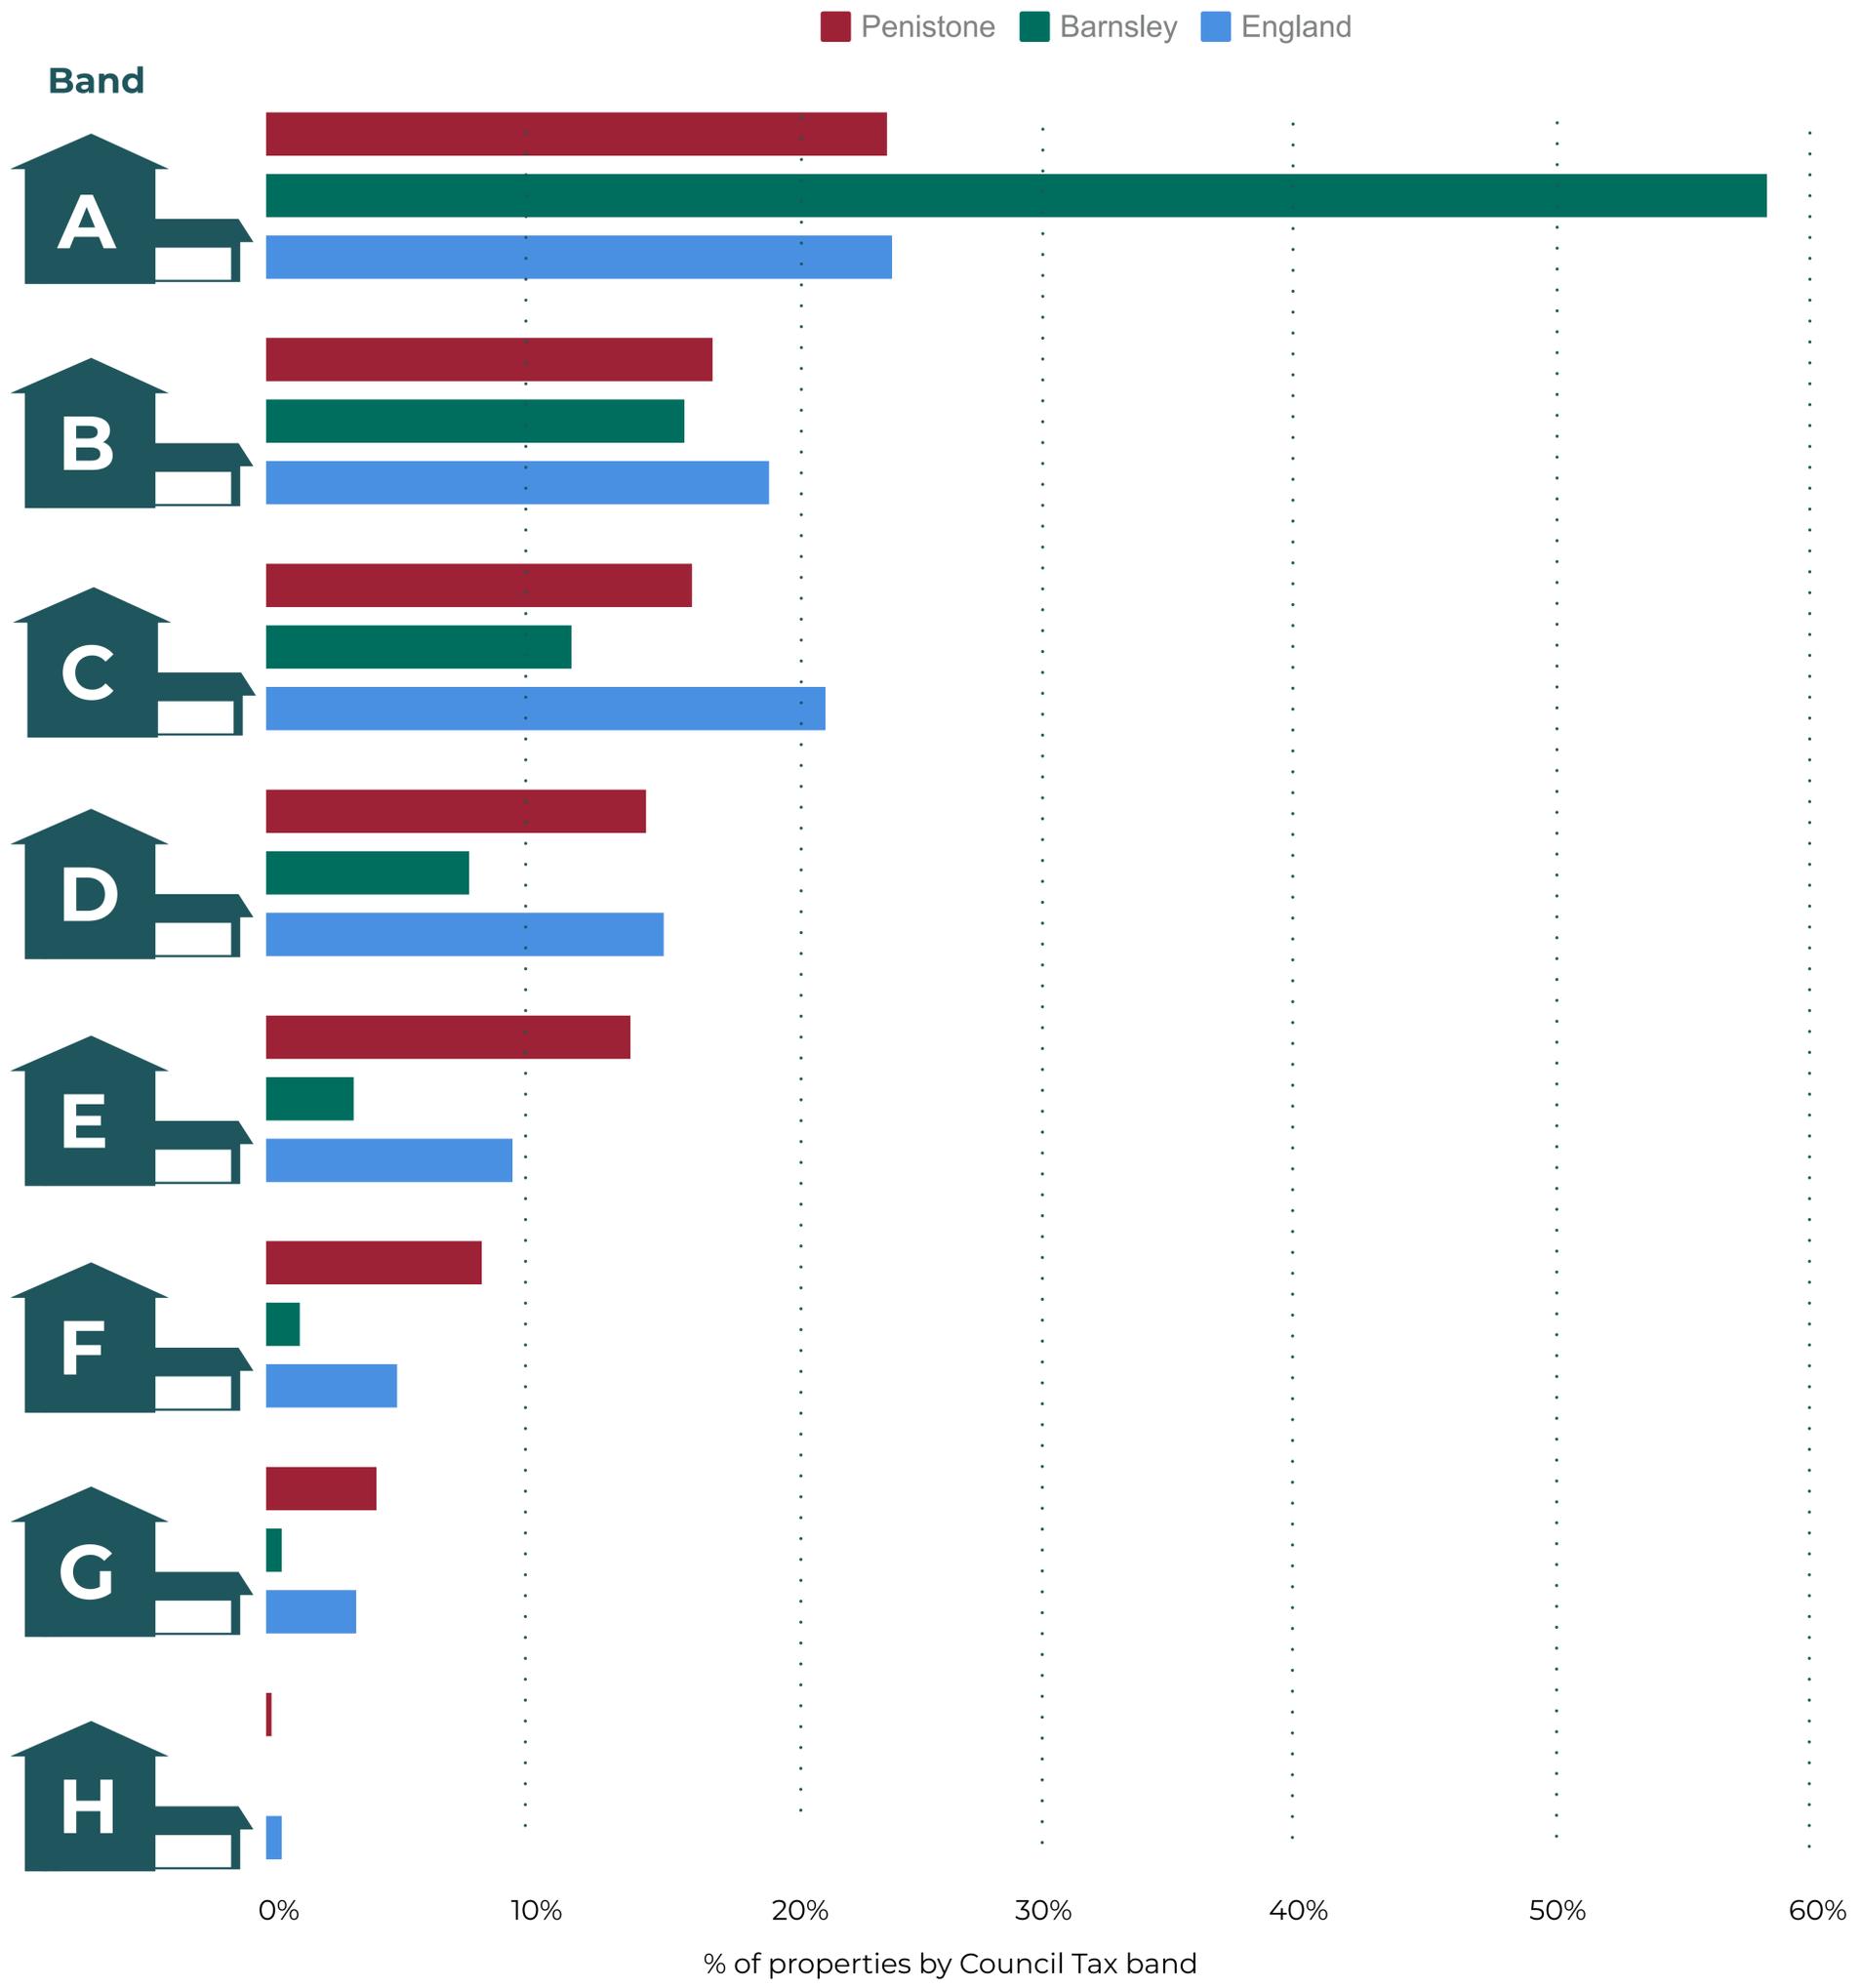

Households

Council Tax Band

10,885

residential properties in the Penistone area

Properties are classified into one of eight valuation bands (A to H, with A being properties of lowest value to H being the highest). The government's Valuation Office determines the amount of Council Tax to pay. The chart shows that there are more Penistone Households in Bands E, F and G compared to Barnsley and national figures.
