# Introduction and Purpose

Barnsley Council is continuing to change how we work together for a 'Better Barnsley'. We have ambitious plans to improve and grow as identified in our Corporate Plan for 2017-2020. This sets out what we aim to achieve over the next three years to improve outcomes for our customers and the community as we strive to become more customer focused, modern, efficient and business minded.

We're still focused on achieving our three key priorities:

- Thriving and vibrant economy
- People achieving their potential
- Strong and resilient communities

We still feel that these areas warrant greater attention, emphasis, and possibly resources, to influence other areas of activity and make the greatest impact overall.

The council will concentrate resources to make the most impact by providing services where they are most needed and we'll help people to do more for each other and their community. To do this, we need a solid evidence base to develop effective interventions which will help to achieve a 'Better Barnsley'.

The data within this report are from the latest available as of May 2018. This information is intended to stimulate discussion, debate and action to support Area Councils and Ward Alliances to identify some of their strategic priorities on an area basis and commission services to meet these challenges.

This profile compares the Ward with the overall Barnsley figure and that of England where possible.

# Demographics

## Overall Population

**10,864**

Up 1.5% since 2011

Barnsley's population has been growing constantly since 2001. Since the 2011 Census, the resident population in Darton East has increased by 1.5%; less than half the rate of increase for Barnsley overall (4.9%). The increase in population is mainly due to more births than deaths and international migration. There are slightly more females compared with males within the ward.
