Dear Resident

WASTE AND RECYCLING COLLECTION SERVICE

Following a recent inspection by the Health and Safety Executive, we are working towards a single safe and accessible collection point for household waste and recycling. We have been advised that the refuse collection vehicle should not leave the adopted highway, particularly when reversing in narrow spaces, as this poses an increased health and safety risk to our workforce, the public and property.

This has had a major impact on our collections from backings and, where these have been risk assessed as unsafe, we are having to designate collection points for residents. The area of Church View has undergone this process and as a result there will now be designated collection points for wheeled bins and recycling, these have been marked on the attached map. From Thursday 2nd April please take your wheeled bin and recycling to your nearest collection point by 6.30am for collection (or the night before). As there will be a number of bins at each collection point you may wish to mark your bin with your house number to ensure that you get your own bin back after emptying.

If all residents of the property are aged over 80 or have a medical condition which affects their ability to put the bin out for collection, then help may be available to put the bin out. Please telephone 01226 774150 for details of this service.

If you have any queries or require further information, please contact me on [REDACTED].

Yours Sincerely

[REDACTED]

Recycling & Communications Officer
