1 Introduction

- 1.1 The aim of this Street Trading Policy (“the Policy”) is to provide a consistent and transparent approach to the method of providing Street Trading Consents, creating a street trading environment which complements premise-based trading, is sensitive to the needs of residents, provides diversity and consumer choice.
- 1.2 This Policy relates to all street trading activities within Barnsley town centre and the wider borough of Barnsley.
- 1.3 Whilst each application will be dealt with on its own merits, this Policy gives prospective applicants an early indication as to whether their application is likely to be granted or not. It also provides prospective applicants with details of what is expected of them should an application be granted.
- 1.4 The Policy recognises the importance of street trading in Barnsley town centre and the wider borough of Barnsley and that it can add to the vibrancy and vitality of the area whilst not adding to nuisance, crime, and disorder, or cause other problems.
- 1.5 This Policy will be subject to monitoring and review after five years or more frequently should legislative changes deem this necessary. However, the Policy will be regularly evaluated and may be changed at any time to reflect minor, administrative or legislative changes or to amend any inconsistencies between the legislation and policy without a full consultation process being conducted.

Any significant amendments to the policy will however only be implemented after a formal consultation process is carried out. Any significant amendments are defined as one that:

- Is likely to have a significant financial effect on Consent Holders.
- Is likely to have a significant procedural effect on Consent Holders.
- Is likely to have a significant effect on the local community.

1.6 What is Street Trading?

Street Trading means the selling, exposing, or offering for sale of any article in a street. The term ‘street’ includes any road, footway, or other area to which the public have access without payment (this can include private land).

Barnsley Metropolitan Borough Council has adopted Schedule 4 of the Local Government (Miscellaneous Provision) Act 1982 which means that consent is required before trading in certain places.

This Policy does not include activities such as placing goods for sale on the street from a shop, street cafes operating from fixed premises or the siting of “A” boards on the street as this is not within the remit of the Act.

1.7 Policy Objectives

The overall objectives of this Policy are to:

- Ensure that any permitted street trading is properly regulated as to where, when, and how it takes place.
- Prevent obstruction of the Borough's highways.
- Ensure the safety of the public and of the traders permitted to trade.
- Ensure any activities do not cause nuisance or annoyance to the public and those traders surrounding the permitted street trader.
- Protect public health through the control of street trading.
- Ensure that appropriate safeguarding measures are in place for children and vulnerable persons.
- Ensure that traders operate within the law and act fairly in their dealings with the public.

2 Exemptions from the need to obtain a Street Trading Consent

2.1 Some types of trade are legally exempt from the need to obtain a street trading consent. These include:

- Trading as a pedlar under the authority of a 'Pedlars Certificate.'
- Trading conducted by a roundsman.
- Trading in a charter market or a statutory market.
- Trading as a news vendor (newspapers and periodicals).
- Trading at a petrol station.
- Trading in a trunk road picnic area provided by the Secretary of State under section 122 of the Highways Act 1980.
- Trading on or at premises used as a shop or in a street adjoining premises so used and as part of the business of the shop.
- The operation of facilities for recreation or refreshment under Part VIIA of the Highways Act 1980.

2.2 As a matter of policy, a Street Trading Consent will also not be required for the following activities:

- Sales of articles by householders on land within the curtilage of their property, for example garage sales.
- Goods from working farms or smallholdings sold at the premises where they were produced.
- Trading as part of an established travelling fair where permission for the event has already been granted by Barnsley Metropolitan Borough Council.
- Trading as part of a market where permission for the market has already been granted by Barnsley Metropolitan Borough Council.

3 Street Designation

3.1 The Act states a Local Authority can designate its streets in three ways, these are:

‘Consent Street’ – which is a street in which street trading is prohibited without the consent of the local authority.

‘License Street’ – which is a street in which street trading is prohibited without a license granted by the local authority.

‘Prohibited Street’ – which is a street in which street trading is prohibited.

3.2 Barnsley Metropolitan Borough Council has adopted Schedule 4 of the Act for the whole of its areas and on 06 February 2025 made a Resolution to determine that all streets within the Barnsley borough are designated as ‘Consent Streets’ with effect from 01 April 2025. The effect of this designation is that street trading in any street within this area is not permitted without first obtaining a Street Trading Consent from Barnsley Metropolitan Borough Council.

3.3 It is a criminal offence to engage in street trading in a Consent Street without authorisation.

4 Community and Special Events

4.1 Barnsley Council is the markets authority for the metropolitan borough of Barnsley and actively manages the council’s markets franchise rights. A market is defined as any event with a concourse of buyers and sellers that has **five or more stalls**. Organisers of community and special events need to apply for and receive a licence to run a market from Barnsley Markets before the event takes place. Application and licence fees will apply. Contact marketservices@barnsley.gov.uk

4.2 Community and special events with **four or less stalls** are defined as a group of street traders and each trader requires Street Trading Consent.

4.3 Organisers of community and special events of **any size with any number of stalls** must notify the Arts and Events service at Barnsley Council of their intention to run an event. Contact eventplanning@barnsley.gov.uk

4.4 Organisers of community and special events must note that should an event take place without the appropriate approvals it will render the organiser and/or the street traders liable to enforcement action, which could include a fine and/or legal proceeding (Local Government Miscellaneous Provisions Act 1982).

5 Food Traders

5.1 In addition to having a Street Trading Consent, any traders selling food must be registered with the appropriate Food Authority as a food business. If you operate a mobile food vehicle, you should be registered with the council where your vehicles

are kept, this is not where you trade. All traders must be registered before applying and be able to provide evidence of your registration when applying for a Street Trading Consent.

- 5.2 Whether a trader is hot or cold food a current Level 2 Food Hygiene Certificate will still be required.
- 5.3 Most but not all, food businesses get a food hygiene rating, ratings range from 0 to 5, with 5 being the best. Ratings are allocated by inspectors following their inspection of your business, a sticker will be given stating your food hygiene rating, and this must be displayed where customers can see it.
- 5.4 As a food trader we would expect you to achieve and maintain a minimum Food Hygiene Rating of a '3'.
- 5.5 Existing businesses whose food hygiene rating falls below a '3', will automatically suspend their current Street Trading Consent. The Consent will come out of suspension if and when the minimum food hygiene rating is regained. Continued suspension may result in the Consent being terminated.
- 5.6 New applicants will be required to supply evidence of their existing food hygiene rating of a '3' or above, or their 'awaiting inspection' status.
- 5.7 All food businesses will be checked to ensure they are registered, and their hygiene rating or inspection verified.

6 Mobile Traders

- 6.1 Mobile traders must move from position to position remaining stationary for no longer than 20 minutes to initially attract customers and thereafter only long enough to serve customers present. The vehicle must move on as soon as the last customer has been served, and no other customer is clearly awaiting service.
- 6.2 Mobile trading is not permitted within the Barnsley town centre boundary but will not limit the number of traders in surrounding towns and villages.
 - 6.3 The Consent Holder must ensure that any stopping position does not infringe any parking or traffic requirements or cause obstruction of the highway and does not present any dangers to other road users or pedestrians.
- 6.4 A Street Trading Consent does not allow trading in Barnsley Council owned car parks. Additional permissions would be required from Parking Services.
- 6.5 Must not stop within 100 metres of any school, measured from the main entrance to the school grounds, during the school day from an hour before and an hour after without the written consent of the school. Any written consents obtained from the school must be provided at the application stage.
- 6.6 The use of Chimes and other audible signals:

- Should be operated between the hours of noon and 7pm.
- Should be operated solely for informing members of the public that the commodity is on sale from the vehicle.
- Should be operated as not to give reasonable cause for annoyance to persons in the vicinity.
- Should operate producing a noise level in any direction of no more than LAMAX 80dB (at 7.5m)
- Should not operate with a playing time lasting more than 12 seconds.
- Should be played once only on the approach to each stopping place, and only once when the vehicle is stationary, and never at intervals of less than 2 minutes.
- Should not be played more often than once every 2 hours in a particular length of street. A 'particular length of Street' should normally be interpreted as being a length of street up to 500 metres long.
- Should not be played when in sight of another vendor whether moving or stationary, which might reasonably be taken to be in the street for trading purposes.
- Should not be played in areas where people may be especially sensitive to their sound. In particular they should not be played:

Within 50m of any hospital or similar institution

Within 50m of a school during school hours.

Within 50m of a place of worship on a Sunday or other recognised days of worship.

6.7 Mobile ice cream vans are vehicles adapted for the sale of ice cream and only sell ice cream, cold soft drinks, cold sandwiches, confectionary, crisps, and frozen lollipops.

7 Static Street Trading

- 7.1 Static Street Trading is trading in one site for more than 20 minutes. If a trader wishes to move around various parts of the borough, they are required to apply for the appropriate Mobile Street Trading Consent.
- 7.2 Static Street Trading is where a pitch is identified, and a Consent Holder trades only from that pitch within the terms and conditions of the Consent issued.
- 7.3 These pitches are usually very specific, and traders are given consent based on the detailed plan submitted on application.
- 7.4 It would be up to the trader to locate a pitch and make an appropriate application with Barnsley Metropolitan Borough Council.
- 7.5 Applicants must contact the appropriate services prior to submitting an application to discuss any issues they may have and whether any other permissions are required.

- 7.6 It is not possible for traders to move pitch, even just a short distance, without prior consent of Barnsley Metropolitan Borough Council.
- 7.7 A Multiple Static Site Consent can be requested for traders who wish to trade in more than one location on a different day(s) of the week under the same Street Trading Consent. A total of two trading pitches will be authorised.
- 7.8 All applications will be dealt with under their own individual merits, however when determining an application, the proximity of existing nearby shops, cafes, and other trades that primarily trade in the same articles will be taken into account.

8 Sale of Alcohol

To sell alcohol, as well as having to hold a Street Trading Consent, licence authorisation under the Licensing Act 2003 would also be required. Where authorisation is granted under the Licensing Act 2003 conditions may be attached to the Street Trading Consent. These conditions may include but are not restricted to the following:

- The trader adopting a challenge 25 policy.
- Restrictions on the sale of alcohol in open containers
- Times at which alcohol may be sold, and the locations not to be near schools, voluntary or third sector services.

Any street trader wishing to sell alcohol should contact the licensing team for further information.

9 Commercial Selling of Vehicles on the Highway

The commercial selling of a vehicle on the highway falls within the scope of street trading and therefore a Street Trading Consent is required from Barnsley Metropolitan Borough Council. Additional restrictions are set out in Section 3 of the Clean Neighbourhoods and Environment Act 2005. This states that a person is guilty of an offence if at any time, acting in the course of a business selling motor vehicles, leaving two or more motor vehicles parked within 500 metres of each other on a road(s) where they are exposed or advertised for sale.

10 Trading on Private Land

- 10.1 Where your proposed trading pitch is on privately owned land you must seek permission from the relevant landowner. You must provide us with a letter or email from the landowner confirming you have permission to trade on their land, including the days and times of permitted trade. We will require the landowners' details for verification purposes.
- 10.2 Unregistered land is land that has not been recorded in the Land Registry, which is the official database of land and property ownership in England and Wales.

Unregistered land may have no clear title or evidence of ownership, or it may have been inherited or transferred informally over time. Trading on unregistered land without authorisation can expose you to legal risks and liabilities, such as legal proceedings from the owner of the land. If a Street Trading Consent is to be considered we may request further documentation to be signed and agree to trading at your own risk, for these types of requests we will always seek advice from our legal department before any decisions can be made.

10.3 The onus is on the applicant to research the proposed trading site, i.e. planning permission, legal right to trade, food and safety, waste provisions, highway restrictions etc.

11 Trading on National Highways' Trunk Roads

11.1 The A616, A628 and A61 are National Highways operational assets (see map: appendix C), applying to Street Trade in these areas will be subject to additional conditions, and will be outlined on the Street Trading Consent granted:

- National Highways will not participate in the vetting of any applications.
- Applications will automatically be refused if there are any safety or environmental concerns.
- Semi-permanent structures such as 'portacabins' or sheds will not be erected in any of the laybys and must be in a position to leave at a moment's notice.
- A Street Trading Consent will not supersede National Highways right to ask a Street Trader to move or cease trading if they feel there are safety or environmental concerns.
- Vehicles/trailers should be sited in an 'ox bow' type layby where grass or concrete areas separate the layby from the main carriageway.
- All vehicles/trailer units must be removed at the end of each working day.
- No flags or signs are to be placed on National Highways land.
- All litter must be removed at end of each working day.
- Any Street Trader can be asked to move or cease trading by National Highways, the local authority or emergency services without notice.
- National Highways reserve the right to close any of the laybys on both a temporary and a permanent basis, Street Traders will have no right to recompense.

12 Town Centre Street Trading

- 12.1 Barnsley Metropolitan Borough Council will issue town centre Street Trading Consents that cover areas of land that are suitable for static street trading use.
- 12.2 Town centre Street Trading Consents can be considered up to a maximum period of 12 months. You may trade only during the times shown on the town centre Street Trading Consent. Extended trading hours will only be granted if linked to an event in the town centre.
- 12.3 Fees for town centre Street Trading Consents are based on pitches up to 18 square metres, additional space required is an additional charge.
- 12.4 The Consent Holder will be responsible for ensuring compliance with the conditions attached to the town centre Street Trading Consent at all times whilst the Consent is being used to facilitate street trading.
- 12.5 Street Trading Consents do not provide exclusive control over trading in the designated area.
- 12.6 There may be times when the permitted area will be unavailable due to utility, maintenance or construction works. This is a normal function of the Highways Authority and utility companies and will not, therefore be subject to compensation.

12.7 For special events which may take place within a 12-month period (April to March), notice may be given to cease trading. We may request vacation of your town centre Street Trading Consent area on up to 3 separate occasions within a 12-month period, if possible, we will offer an alternative area for relocation. No compensation will be offered for relocation or cease of trading.

12.8 Businesses are permitted one 'A' board and should not exceed 800mm in height and 500mm in width. 'A' boards and other free standing pavement signs should be placed, either in an area 600mm immediately in front of their stall or in line with an adjacent line of bollards. It should be remembered that at least 1.8m of clear footway must be retained between the board and the stall or bollards/obstruction, and boards should allow at least 450mm clearance between the board and the kerb edge.

12.9 External tables and chairs may only be used upon written approval from Barnsley Metropolitan Borough Council after first obtaining the appropriate highways permission from the Highway's Authority.

13 Application Process

13.1 An application for a Street Trading Consent cannot be given tacit approval, as it is in the public interest, safety, and policy that Barnsley Metropolitan Borough Council must undertake checks before any application can be granted and any grant will be in writing in a formal consent. We aim to process all applications within 20 working days where possible.

13.2 You can make an advance enquiry by completing the online form, making an advance enquiry does not guarantee that you will get a Street Trading Consent, but it may help you to prepare a stronger application and increase your chances of success. An advance enquiry will help you to plan your business and avoid wasting time and money on a full application that may not be successful.

13.3 Any application for a Street Trading Consent must meet the following criteria:

- The applicant must be over 17 years of age.
- The name of the business must not be the same as, or be similar to, that of an existing static retail business or another street trader

- In respect of an application for a Consent to trade from a fixed site, a location plan of where the vehicle or stall will be positioned in an appropriate scale to identify the exact location of the vehicle or stall and surrounding areas and streets. The plan must clearly identify the proposed street trading site, and the ground dimensions it will cover.

- 13.6 Other than judicial review, there is no statutory right of appeal against Barnsley Metropolitan Borough Council's decision to refuse to grant, amend, vary, or revoke a Street Trading Consent.

14 Renewals

- 14.1 Street Trading Consents that have not been renewed by their expiry date will automatically cease to exist and trading must cease until such time as a new Street Trading Consent has been granted.
- 14.2 All renewal applications must be submitted a minimum of 20 working days prior to the expiry of the current Street Trading Consent to allow for processing of the application. A completed renewal form and application fee of £100 will need to be submitted.
- 14.3 Generally, no further consultation will be necessary when dealing with a renewal application, however Barnsley Metropolitan Borough Council reserves the right to consult where there are or have been concerns raised in the previous Street Trading Consent period.
- 14.4 Applications for renewal of a Street Trading Consent will be granted once proved that no substantiated complaints have been received regarding:
- The manner in which the Consent Holder has conducted their business.
 - The Consent Holder or any authorised assistant's conduct
 - Where no relevant objections have been received
 - In addition, a new criminal record disclosure will only be required every 3 years.
- 14.5 The majority of documents requested in the initial application process will need to be produced at every renewal; however, the DBS only needs to be renewed every 3 years. New photographs will not be required unless the appearance of the Consent Holder(s) have materially changed.
- 14.6 Checks will be made to ensure there have been no changes from the original application, these checks will include verification of any permissions granted including the trading location.
- 14.7 The responsibility for ensuring renewal of Street Trading Consents rests solely with the Consent Holder, Barnsley Metropolitan Borough Council will not send out reminders. If a renewal application and fee are not submitted, then the Street Trading Consent will lapse.

A renewal application will not be accepted after the expiry of any existing Street Trading Consent. The effect of this will be that a trader will not be permitted to trade until a new application and fee has been submitted and the Street Trading Consent is granted.

15 Transfers and Amendments

Street Trading Consents are non-transferable, the Consent Holder may employ any person to assist in the conduct of the business but may not let, assign, or part with his/her interest or possession under this Street Trading Consent or any part thereof but he may surrender it at any time. The rights granted by the Street Trading Consent cannot be sublet, transferred, or shared with any other person or party and is personal to the Consent Holder.

No amendments (e.g., date changes, location, type of stall or van) may be made without the prior written consent of Barnsley Metropolitan Borough Council.

Any Street Trading Consent which is valid but is no longer required should be surrendered to Barnsley Metropolitan Borough Council in writing.

- 16.1 The fees and charges will be set and reviewed annually; such fees will be set as Barnsley Metropolitan Borough Council consider are reasonable for Street Trading Consents. Barnsley Metropolitan Borough Council will also consider imposing additional charges as appropriate for the recovery of reasonable costs associated with the collection of left refuse and the cleansing of streets. Deductions may be taken

from the remaining balance before refunding the Consent Holder for the reasonable cost of repair to any damage caused, removal of any discarded materials, additional cleansing costs, along with appropriate administration fees.

APPENDIX D

Guidelines relating to the relevance of convictions for Street Trading

The Policy and guidelines relate to applications for the grant or renewal of a Street Trading Consent, as well as current holders of those authorisations.

These guidelines do not deal with every type of offence, and do not prevent Barnsley Metropolitan Borough Council from taking into account offences not specifically addressed in the guidelines or other conduct, which may be relevant to an individual's application.

Each application will be decided on its own merits and will be assessed whether an applicant is a suitable person to hold or to continue to hold a Street Trading Consent. Unspent convictions or conduct of applicants will take the following into consideration:

- Whether the conviction/incident is relevant.
- The seriousness of the offence/incident.
- The length of time since the offence/incident occurred.
- Whether there is a pattern of offending behaviour or similar conduct.
- Whether a person's circumstances have changed since the offence/incident occurred, and the circumstances surrounding the offence/incident, and the explanation offered by that person.

Where an applicant has been convicted of a criminal offence, Barnsley Metropolitan Borough Council cannot review the merits of the conviction.

The following are given as guidance to certain categories of offences for new applications or renewals of Street Trading Consents:

1. Dishonesty

Holders of a Street Trading Consent must be persons who can be trusted. It is easy for a dishonest trader to take advantage of the public. Members of the public using Street Trading outlets expect the trader to be honest and trustworthy.

For these reasons, a serious view will be taken of any unspent convictions involving dishonesty. In general, a new applicant or renewal application is unlikely to be granted a Street Trading Consent where an application is made within 3 to 5 years of a conviction or from the date of release from a period of imprisonment.

2. Violence

Street traders will have close contact with the public, therefore, to minimise any risks, a serious view will be taken where offences of violence involve a loss of life, a Street Trading Consent will be refused.

In other cases, a period of 3 to 10 years, free of convictions, or from the date of release from a period of imprisonment, depending upon the nature and seriousness of the offence(s), will generally be required before an application is likely to be considered favourably.

3. Drugs

Where an applicant has a conviction for an offence that relates to the supply or importation of drugs and the date of the conviction or the release date from a period of imprisonment is less than 5 to 10 years before the date of the application, a Street Trading Consent will be refused. After 5 years from a conviction or the date of release from a period of imprisonment, the circumstances of the offence and any evidence which shows that a person is now suitable to hold a Street Trading Consent will be taken into consideration.

An application will normally be refused where the applicant has a conviction for an offence relating to the possession of drugs and the date of the conviction or the release date from a period of imprisonment is within 3 to 5 years of the date of the application. After a period of 3 years from conviction or the date of release from the period of imprisonment, consideration will be given to the circumstances of the offence and any evidence to show that an applicant is a suitable person to hold a Street Traders Consent.

An application will normally be refused where an applicant has more than one unspent conviction for offences related to the possession of drugs and the last conviction or the date of release from the period of imprisonment is less than 5 years before the date of the application.

4. Sexual and Indecency Offences

As the holders of Street Trading Consents (for example those who sell ice cream), have access to children, applicants who have unspent convictions for rape, indecent assault, any sexual offence involving children and any unspent conviction for an offence under the Sexual Offences Act 2003 will normally be refused a Street Trading Consent.

Where an applicant has a conviction for a sexual offence such as indecent exposure, they will normally be refused a Street Trading Consent until they can show a substantial period usually between 5 and 10 years free of any such convictions from the date of conviction or the date of release from the period of imprisonment.

When considering applications, Barnsley Metropolitan Borough Council may take into account any information of a sexual nature which does not amount to a criminal offence that is brought to its attention where that information may indicate that an applicant may not be a suitable person to hold a Street Trader Consent. It will normally require a period of not less than 5 years free of such incidents from the date on which the incident occurred or, if more than one from the date of the last incident.

5. Motoring Convictions

In most cases, motoring offences are unlikely to be relevant when deciding if any applicant for a Street Trading Consent is a suitable person. However, there may be instances where the nature of the Street Trading is such that, by its very nature the applicant is required to drive (for example ice cream sellers) or the offences are of a serious nature.

In those cases, an applicant for a Street Trading Consent would be expected to show a period usually between 3 and 5 years of any such offences from the date of conviction or the date of release from the period of imprisonment.

6. Formal Cautions and Fixed Penalty Notices

For the purposes of these guidelines, Barnsley Metropolitan Borough Council will take into account cautions and penalty notices, however the longer the period since the caution/penalty notice was imposed the less relevance it is likely to have.
