Dear Requester,

Re: Request for Information – Freedom of Information Act 2000

I wish to confirm that the council has completed its search for the information which you requested.

The information requested and our findings are as follows: -

1. Total Spend on Reinstatement Repairs

For each of the last five financial years (2020/21 – 2024/25 or most recent available):

- The total gross expenditure incurred by the council on repairs to the public highway that were required due to *failure, deterioration, or defect* in reinstatements originally carried out by:
 - Statutory undertakers (e.g., water, gas, electricity, telecoms)
 - Their contractors or sub-contractors

Please include costs such as:

- Patching or resurfacing works
- Emergency repairs linked to failed reinstatements
- Additional inspections or investigations specifically triggered by reinstatement failure

None. Remedial works for defects found within warranty period are undertaken by the responsible statutory undertaker. Issues originally caused by activities of statutory undertakers outside of the warranty period are covered by general highway maintenance and are not recorded separately.

2. Amount Recovered From Utility Companies

For the same five financial years:

- The total amount invoiced to utility companies or contractors for defective reinstatement repairs
- The total amount actually recovered
- Any outstanding amounts (if held in recorded form)

None. Remedial works are undertaken by the responsible statutory undertaker.

3. Volume of Defective Reinstatements

For each of the same years:

- The number of reinstatements recorded as *defective or non-compliant* under:
 - The New Roads and Street Works Act 1991 (NRSWA)
 - SROH requirements
 - HAUC guidance or your local inspection criteria

If possible, please break this down by utility type (water, gas, electricity, telecoms, etc.).
