Dear Requester,

Re: Request for Information – Freedom of Information Act 2000

I wish to confirm that the council has completed its search for the information which you requested.

The information requested and our findings are as follows: -

We are trying to add your our municipality on our platform and include the PRM parking spots. However, we are not certain whether online information is accurate or up to date, and after reviewing the public information available on your website, we were also unable to find a reliable dataset. We would therefore greatly appreciate receiving a file in CSV, GeoJSON, or a similar format containing the geographic coordinates (latitude and longitude) of the PRM parking spots, so that we can accurately display them on our map.

Unfortunately, we are unable to provide the information requested. At present, Barnsley Council does not hold this data in a digital format that can be readily exported as a CSV, GeoJSON, or similar dataset containing geographic coordinates.

Would you be able to assist us by providing a digital file containing the parking spot data? By doing so, we can continue advancing accessibility and inclusion by offering citizens a useful and free tool.

Our Traffic Regulation Orders (TROs), which govern parking restrictions and designated parking places, have not yet been fully digitised. As a result, we do not currently maintain an authoritative digital dataset of PRM (disabled) parking spaces that we can share externally.

We appreciate that obtaining accurate and up-to-date information is important for your project. Whilst we are currently exploring options for future digitisation and improved accessibility of our parking data, we are unfortunately unable to provide a timescale for when such information may become available.
